

Machine Applique Supplies

Fusible Web - 3½" x 4½"
Tear Away Stabilizer - 6" x 6"
Background fabric - 6" x 6"
Applique fabric - 3½" x 4½"

Decorative Embroidery thread
Bobbin thread
Open toe applique foot
Embroidery 75/11 needle

Directions:

Trace the leaf design onto the paper side of fusible web. Iron the fusible web to the back of your applique fabric, allow to cool and cut out along traced line. Remove the paper backing from the applique and place onto background fabric. Fuse into place with hot iron. Place the Tear Away stabilizer behind the background fabric.

Set machine to a satin stitch (zigzag width 2.5, length .4) and sew over all edges. End with a lock stitch.

Remove stabilizer from under applique piece only, leaving the outer stabilizer to act as a hoop. Shown below is a butterfly applique with the stabilizer removed from under the applique piece only with the outer stabilizer left in place.
